Northeast Communities Against Substance Abuse

Northeast Communities Against Substance Abuse

What is NECASA?

Northeast Communities Against Substance Abuse (NECASA) is an autonomous public-private partnership created in 1990, dedicated to reducing the incidence and prevalence of substance abuse in Northeastern Connecticut. Its purpose is to assess the needs of its community in the field of substance abuse, establish and implement an action plan to develop and coordinate services, and advocate for the resources needed to accomplish such plans. These services, described as a continuum of care, include community awareness and education, prevention, intervention, treatment and aftercare. NECASA receives funds from the Connecticut Department of Mental Health and Addiction Services, and the Drug-Free Communities Support Program (U.S. Department of Health and Human Services), municipalities, and from public donations.
